FROM CENTRALISED TO DECENTRALISED /

The growth of the decentralized finance (DeFi) ecosystem in 2020 has been explosive, despite DeFi being an almost unknown concept in 2019.

According to data from DeFi Pulse, while it took close to two years for DeFi deposits to reach USD 1 Billion in Total Locked Value (TVL) as of Q4 2019, and as in Feb 2021, the DeFi TVL has seen the all-time-high around USD 45 billion (45x since Q4 2019). We still see the strong momentum of DeFi growth. On 14 March 2021, the DeFi TVL saw the all-time-high at USD 45.97 billion.

Muse.Finance /

Muse.Finance is Decentralised Finance Platform where staking users can receive rewards generated by staking and simultaneously get benefited through wrapper, swapping, lending and yield farming.

Solutions /

- ❖ By enabling the illiquid staked tokens to be transferable, ensures sufficient token in circulation and efficient price discovery on DEX
- ❖ Users can trade the staked tokens to secure their profit on the spot, avoiding the 7–28 days unbounding process (this however is due to on-chain security consideration against long-range attack)
- ❖ For users to have other ways of generating financial revenue other than staking reward while receiving staking reward.
- ❖ Bridge between non-ERC20 chain and ERC20 chain in the beginning, and eventually enable to connect assets to many other chains
- ❖ Lending and leverage trading opportunity while staking.

Product Highlights /

Wrapper

Cross-chain Staking Gateway
for non-ERC 20 assets

Swap

Liquidity Provider
through Automatic Market Maker
for ERC 20 assets and cross chain
assets

Lending

Liquidity Offering Platform
to improve capital efficiency

Yield Farming

Automated leveraging Farming
with deposit collateral to Lending
Platform

Roadmap /

- 2021.01
PoC Completed
- 2021.03
MVP Launched
- 2021.05
Wrapper Launch
Swap Phase 1
- 2021.H2
Swap Phase 2
- Yield Farming
Launch
- Lending Platform
